### What can I do with an NCV Level 4 qualification?

- Go to university or other tertiary education institutions.
- Start working after matric.
- Start my own venture.

### Programme information

The Finance, Economics and Accounting programme will give students the skills to become entrepreneurs in their own right. They will receive exposure to a multitude of financial sector competencies including banking, investments and financial services. This programme is highly recommended to students with an interest in careers such as chartered accountancy, financial and investment management and brokerage.

### What will I learn?

- Industry-standard accounting software
- End-user computing
- Entrepreneurial skills
- Financial planning
- Interpretation and understanding of the economy
- Accounting principles and application

### Entry requirements

- Grade 9 pass
- Or NQF Level 1 qualification

### Finance, Economics and Accounting

This career-focused matric is right for you if you are interested in the information technology industry and considering careers such as network technician, software developer, database administrator, graphic designer, etc.

The Finance, Economics and Accounting programme is aimed at students who are interested in pursuing a career or further studies in the financial sector. The programme is predominantly skills-focused and integrates with academic knowledge. The programme follows the National Certificate Vocational (NCV) curriculum. Successful learners receive a qualification at the end of each academic year. The programme seeks to provide learners with essential industry-related skills, simulated practical and work experience and improve a student's employability post qualification.
